**PULP BIOLOGY AND REGENERATION GROUP**

## **TISSUE INJURY AND PULP REGENERATION**

University Medical Center, Geneva, Switzerland  
July 18 - 20<sup>th</sup>, 2010

[www.geneva-2010.de](http://www.geneva-2010.de)

## CALL FOR ABSTRACTS

This symposium will provide scientists and clinicians with information about the latest developments regarding pathology and regeneration of the dental pulp. We have attracted leading researchers in the field for invited talks. Poster sessions will be arranged from accepted abstracts. This focused meeting offers excellent opportunities to present and discuss new investigations, to interact and network. If you are involved in research on dental pulp injury and regeneration, attendance and submission of an abstract is essential.

**Deadline: May 05, 2010**

## POSTER AWARD

Young investigators are invited to submit abstracts. Poster awards will be given for the best two abstracts and poster presentations. The awards consist of a cash prize of € 500.

## REGISTRATION AND TRAVEL

PBRG-Member\*: € 150 (After June 1<sup>st</sup>, 2010: € 200 )

Non-Member: € 250 (After June 1<sup>st</sup>, 2010: € 300)

PBRG Student – Member\*: € 75

Student Non-Member\*\*: € 150

Accompanying Person: € 100

\*including members of AAE and ESE

Flights from Barcelona to Geneva for € 65 - € 85

**Register at: [www.geneva-2010.de](http://www.geneva-2010.de)**

## TENTATIVE PROGRAM

**Sunday, July 18, 16:00**

**Session I: Basics of Regeneration**

Introduction to the Symposium	Michel Goldberg
Human Pluripotent Stem Cells	Marisa Jaconi
Stem Cell Niches	Tim Mitsiadis
Systematic Overview of the Developmental Principles Guiding Tissue-specific Regeneration	Rena D'Souza

**Monday, July 19, 9:00**

**Session II: Tissue Injury and Defense Mechanisms**

The Microbial Challenge to Pulp Regeneration	Ashraf Fouad
Mediators of Inflammation and Regeneration	Paul Cooper
TLRs in Pulp Defence	Marie Jeanne Staquet
TLR/LPS and Dental Monomers	Gottfried Schmalz

**Monday, July 19, 14:00**

**Session III: Tissue Injury and Cell Proliferation/Differentiation**

Pulpal Progenitors and Dentin Repair	Anne Poliard
Pulp Stem Cells and Pulp Regeneration	Misako Nakashima

**Tuesday, July 20, 9:00**

**Session IV: Tissue Engineering Aspects**

In Vitro Dentin Generation:	
The Pivotal Role of Supportive Cells	Imad About
Angiogenesis in Pulp Regeneration	Jacques Nör
Scaffolds for Dental Tissue Engineering	Kerstin Galler

**Tuesday, July 20, 13:00**

**Session V: From Lab to Clinic**

Chair: Gunnar Bergenholtz	
Dentin Pulp Complex Regeneration:	
From Lab to Clinic	Stephane Simon
PANEL DISCUSSION:	
Pulp Regeneration: Clinical Questions to Scientific Answers	

**End: 16:00**

## SPONSORS

**AAE - American Association of Endodontists**

**American Association of Endodontists Foundation**

**CED – IADR Continental European Division**

**ESE - European Society of Endodontology**

**Kuraray**

**Septodont**

**Maillefer**

**SCIENTIFIC COMMITTEE**

**See website: [www.Geneva-2010.de](http://www.Geneva-2010.de)**

**ORGANIZING COMMITTEE**

**Serge Bouillaguet, Geneva**  
**Michel Goldberg, Paris**  
**Gottfried Schmalz, Regensburg**
